Alexander Hladkyi

Product & UX/UI Designer • Design for B2B & B2C mobile, web products • www.alexhladkyi.com

mail@alexhladkyi.com • LinkedIn • Telegram • +380 91 903 6937 • Lviv, Ukraine (Exempt from military draft)

I specialize in design for consumer and B2B products, with complex workflows for technical audiences.
Enthusiastic about projects with new or unconventional interaction patterns; working on new and existing products.
Close to a decade of experience across agencies, startups and established companies.

Currently working independently while exploring long-term Product Designer roles.

Work Experience

Axenor • **Product Designer** • 2025 • Remote (US)

Safety and compliance platform for trucking fleets. Sole designer closely embedded with founders/eng. Helped shape MVP scope and feature priority for a new mobile sub-product from zero. Designed core UX flows and visual direction for drivers in and out of trucking fleets.

USC Spirit • **Product Designer** • 2021–2025 (Part-time → Full-time) • Kharkiv, Ukraine

Management, control, and automation for truck scales. First designer closely embedded with founders and eng team; owned end-to-end design of the software ecosystem surrounding the company's hardware.

- Designed tablet/desktop application for controlling weighing hardware by weigh stations operators
- Designed a mobile app for weight stations admin staff
- Designed a mobile app for truck drivers to automate their work within the company's ecosystem
- Worked on service design for an automated weighing station service

LawLink • **Product Designer** • 2024 • Remote (Ukraine)

Designed a 0→1 mobile legal tech platform connecting lawyers and clients, from initial discovery through visual design. Closely worked with founders and eng team to bring ride-hailing-inspired urgent help request feature.

Appsuite • **Product Designer** • 2020–2023 (Full-time → Part-time) • Remote (US)

B2B2C SaaS platform for HoReCa. Owned design end-to-end on all products of the company. Designed the next major version of the main CRM product, introduced extensive visual refinements to their custom Angular-based apps, closely worked with founders on automating the company's operations using a new internal back office portal.

- Streamlined client onboarding flows of the main CRM product
- Redesigned IA, navigation and visual hierarchy to address frequently recurring support requests
- Systematized customer-facing apps designs to enable more efficient setups for company clients

Spiral • **Product Designer** • 2020 • Remote (US)

End-to-end productivity mobile app design for Events industry.

Zyda • **UX/UI Designer** • 2019 • Remote (ME)

Digital ordering SaaS. Designed new multilingual support feature for company's core CRM product.

Fannex • **UX/UI Designer** • 2018 • Remote (Canada)

Fan engagement platform for live events. Designed new native mobile apps to replace their old web-view versions.

Attorneys on Demand • **UX/UI Designer** • 2016 • Remote (US)

National court appearance service. Designed a native mobile iOS app to accompany their existing service.

Consultica • **UX/UI Designer** • 2015–2018 • Kharkiv, Ukraine

Designed multiple mobile applications. Supported designs of existing agency's mobile-focused projects.

- Designed mobile apps, web ticketing & basic back office for Techapalooza Festival
- Designed a mobile app for Winnipeg Smart City initiative
- Provided design support on agency's Tim Hortons, Onyx Energy, Parks Canada & San Francisco Chronicle projects

Independent Practice

www.alexhladkyi.com • 2013–2026

Ongoing freelance work alongside the already mentioned roles. Provide design services to new and returning clients: 0→1/MVP projects, new features for existing products, custom app icon design, design audits and advisory.

Other Experience

PitchBook Data • **Manual QA Engineer** • Prior to 2015 • Remote (US)
