

Alexander Hladkyi

Product & UX/UI Designer • Design for B2B & B2C mobile, web products

www.alexhladkyi.com • mail@alexhladkyi.com • [LinkedIn](#) • [Telegram](#) • +380 91 903 6937 • Lviv, Ukraine

I specialize in design for consumer and B2B products, with complex workflows for technical audiences. Enthusiastic about projects with new or unconventional interaction patterns; working on new and existing products. Close to a decade of experience across agencies, startups and established companies.

Work Experience

[Independent Designer](#) • 2013 – Present

Provide design services to new and returning clients. Focused on: custom app icon design, 0→1 and MVP mobile, tablet and desktop apps, design audits and advisory.

[Axenor](#) • **Product Designer, Mobile** • 2025 • Remote (US)

Safety and compliance platform for trucking fleets. Sole designer: helped shape MVP scope for a new mobile app sub-product, designed core UX and visual direction.

[USC Spirit](#) • **Product Designer, Tablet, Desktop, Mobile** • 2021 – 2025 (Part-time, Full-time) • Ukraine

Management, control, and automation for truck scales. First designer; owned end-to-end design of the software ecosystem surrounding the company's hardware.

- Designed tablet/desktop application for controlling weighing hardware by weigh stations operators
- Designed a mobile app for weight stations admin staff
- Designed a mobile app for truck drivers to automate their work within the company's ecosystem
- Worked on service design for an automated weighing station service

[LawLink](#) • **Product Designer, Mobile** • 2024 • Ukraine

Marketplace for lawyers and people seeking legal help. Owned all design aspects; 0→1 mobile Flutter app project.

[Appsuite](#) • **Product Designer, Web & Mobile** • 2020 – 2023 (Full-time, Part-time) • Remote (US)

B2B2C SaaS platform for HoReCa. Owned design end-to-end on all products of the company. Designed the next major version of the main CRM product, introduced extensive visual refinements to their custom Angular-based apps, closely worked with founders on automating the company's operations using a new internal back office portal.

- Shortened client onboarding and reduced support load on the CRM product
- Improved stores ratings for their cross-platform apps
- Increased client sign-ups for the custom app service

[Spiral](#) • **Product Designer, Mobile** • 2020 • Remote (US)

End-to-end mobile productivity app design for Events industry.

[Zyda](#) • **UX/UI Designer, Web** • 2019 • Remote (ME)

Digital ordering SaaS. Designed new multilingual support feature for company's core CRM product.

[Fannex](#) • **UX/UI Designer, Mobile** • 2018 • Remote (Canada)

Fan engagement platform for live events. Designed new native mobile apps to replace their old web-view versions.

[Attorneys on Demand](#) • **UX/UI Designer, Mobile** • 2016 • Remote (US)

National court appearance service. Designed a native mobile iOS app to accompany their existing service.

Consultica • **UX/UI Designer, Mobile** • 2015 – 2018 • Ukraine

Designed multiple mobile applications. Supported designs of existing agency's mobile-focused projects.

- Designed mobile apps, web ticketing & basic back office for Techapalooza Festival
- Designed a mobile app for Winnipeg Smart City initiative
- Provided design support on agency's Tim Hortons, Onyx Energy, Parks Canada & San Francisco Chronicle projects

PitchBook Data • **QA Contractor** • 2008 – 2015 • Remote (US)
